SUMMARY

Aspiring Software Development Engineer with experience in full-stack development, system design, and scalable application deployment. Skilled in React.js, C++, Node.js, SQL, and building robust pipelines and APIs. Experienced in interactive dashboards, intelligent assistants, and real-time data systems, seeking SDE roles to deliver production-grade software solutions.

EDUCATION

Vellore Institute of Technology, Chennai
B. Tech in Computer Science and Engineering

2023 - 2027
GPA: 8.09

WORK EXPERIENCE

Full Stack Developer Intern — Upkarak Tech Solutions Pvt. Ltd (Aug 2025 - Oct 2025) [\[Link to Certificate\]](#)

- Built reusable, responsive React.js components with hooks and state management, and designed RESTful Express.js/Node.js API endpoints for a customer dashboard, reducing page load time.
- Implemented JWT-based authentication and role-based access control (RBAC) via custom Express middleware, securing protected API routes across multiple user roles.
- Wrote unit and integration test suites for API endpoints, configured an automated CI pipeline, and containerized the application with Docker for consistent staging deployments.

SDE Intern — Tez Minds Software Pvt. Ltd. (Jun 2026) [\[Link to Certificate\]](#)

- Designed a relational database schema across 5 entities (users, sources, articles, briefs, feedback) with personalization fields (interests, knowledge level, topic preferences); prototyped and validated it via sample-data query testing.
- Built an automated, scheduled source-ingestion pipeline with content normalization, near-duplicate detection, and rule-based topic-categorization logic across multiple external sources.
- Integrated an AI brief-writing agent with a relevance-scoring/personalization engine matching content to user profiles, then connected the pipeline to automated email delivery and resolved bugs via end-to-end testing.

PROJECTS

Campus Hiring Portal [\[Link\]](#)

Tools Used: HTML, CSS, JavaScript, Node.js, Express.js, MongoDB

- Built a full-stack recruitment portal with Node.js/Express.js REST APIs and MongoDB schemas to manage job postings, applications, and recruiter approval workflows.
- Implemented **role-based authentication** with protected API routes for student, recruiter, and admin roles, enforcing granular access control across the platform.
- Designed responsive, DOM-driven dashboards for job listings and real-time application-status tracking, reducing manual coordination between students and recruiters.

SKILLS

Technical Skills: C • C++ • Java • Python • Object-Oriented Programming (OOPS) • HTML • CSS • JavaScript • React.js • Git • GitHub • Figma • Canva • Full-Stack Development • Web Development • UI/UX Design

Soft Skills: Problem Solving • Critical Thinking • Collaboration • Teamwork • Creativity • Attention to Detail

CERTIFICATIONS AND TRAINING

React Frontend Project (GreatStack) [Link to Certificate](#)
GenAI Hackathon 2024 – National Level (Intel × KPR Institute of Engineering & Technology) [Link to Certificate](#)
Data Structures & Algorithms Practice ([LeetCode](#) – 70+ Problems Solved)

ACHIEVEMENTS

- General Secretary, Wakhra Punjab (VIT Chennai)** — led planning and execution of club initiatives and cultural events.
- Managed multiple events during **Vibrance** and **TechnoVIT**, VIT Chennai's flagship cultural and technical fests.
- Coordinated content, design, and team workflows to ensure smooth execution and strong participant engagement.
